# INTRODUCTION

Health is an area that needs constant and long-term investment and is the foundation for stable and sustainable development of the society.

In our 20-year history of establishment and development, Japan Vietnam Medical Investment And Development Joint Stock Company (JVC) has always been consistent with that goal to become a leading enterprise in the field of medical equipment distribution, consumable materials distribution, associate investment, technical services, IT services and general clinic.

The COVID-19 pandemic has made governments pay more attention to improving health infrastructure, and people become more aware of their own as well as the social health care. In the context that enterprises, especially those operating in the health area face lots of difficulties, JVC has actively restructured and changed strategies, consolidated the Board of Directors, the Board of Management, and gradually transformed from a commercial company into a company providing comprehensive medical solutions to overcome difficulties, challenges and to welcome new opportunities.

JVC has a basic system foundation and good relationship with distributors, which greatly help JVC to maximize our existing advantages and to research for expansion business in health area. JVC will optimize the interests of partners, customers, shareholders, and the whole society based on the established core values and expect our partners, customers will continue to accompany and support us in the upcoming journey.

With the message “Japanese Quality - Real Value”, JVC will make endless efforts to contribute a small part to the development of Vietnamese medical infrastructure, with the best standards at the most reasonable cost, thereby, helping Vietnamese people to easily access high-quality medical services.

**General Director**

**Le Minh Chung**

RESPONSIBILITIES to the society

# DEVELOPMENT MILESTONES

27/09/2001

Formerly known as Japan Vietnam Medical Instrument Co., Ltd., JVC took its first step in the healthcare industry with 5 employees and a charter capital of VND 6 billion.

2002

JVC became the exclusive distributor of **Hitachi Healthcare's** diagnostic imaging products in Vietnamese market.

2003

JVC became the distributor of **Nemoto's** contrast injectors in Vietnam.

2004

Establishing Representative office in Ho Chi Minh City, marked a milestone in market expansion.

2007

Launching of the first mobile health checkup bus in Vietnam.  
In the same year, JVC became the distributor of **Fujifilm**, specializing in medical film and radiography products in Vietnam.

2014

JVC became the distributor of **Konica Minolta's** DR, CR, medical film and medical dry film printers in Vietnamese market.

2013

Increasing charter capital from VND 354 billion to VND 568 billion, marked the 3rd successful charter capital increase.  
In the same year, JVC acquired Kyoto Medical Science Co., Ltd.

2012

Increasing charter capital from VND 322 billion to VND 354 billion.

2011

JVC marked our 10th successful year with our IPO on Ho Chi Minh City Stock Exchange (Stock code: JVC) on June 21st, 2011 with 24.2 million shares.  
At the same time, the company's charter capital increased from VND 242 billion to VND 322 billion.

2010

On September 27th, 2010, Japan Vietnam Medical Instrument Co., Ltd. changed our name to Japan Vietnam Medical Instrument Joint Stock Company.

2009

Establishing Viet Nhat General Clinic, envisioned to meet the needs for on-site health checkups in industrial parks as well as other clients.

2015

Increasing charter capital to VND 1,125 billion.

2016

JVC became the distributor of **Sakura's** CSSD products in Vietnam.

2017

Establishing Ho Chi Minh City branch and relocating the headquarter to ICON 4 Building, 243A De La Thanh Street, Dong Da District, Hanoi.

2020

JVC became the distributor of **Saraya's** and **Dentalife's** consumables and infection control chemical solutions, **Advanced Medtech Solutions** surgical suture.

2021

JVC converts the name from Japan Vietnam Medical Instrument Joint Stock Company to Japan Vietnam Medical Investment And Development Joint Stock Company to be more relevant to the areas the company will focus on in the future.

# ASSOCIATE INVESTMENT

32 cities/ provinces | 80 partners | 119 projects

JVC’s target is always to parallel company development with social prosperity

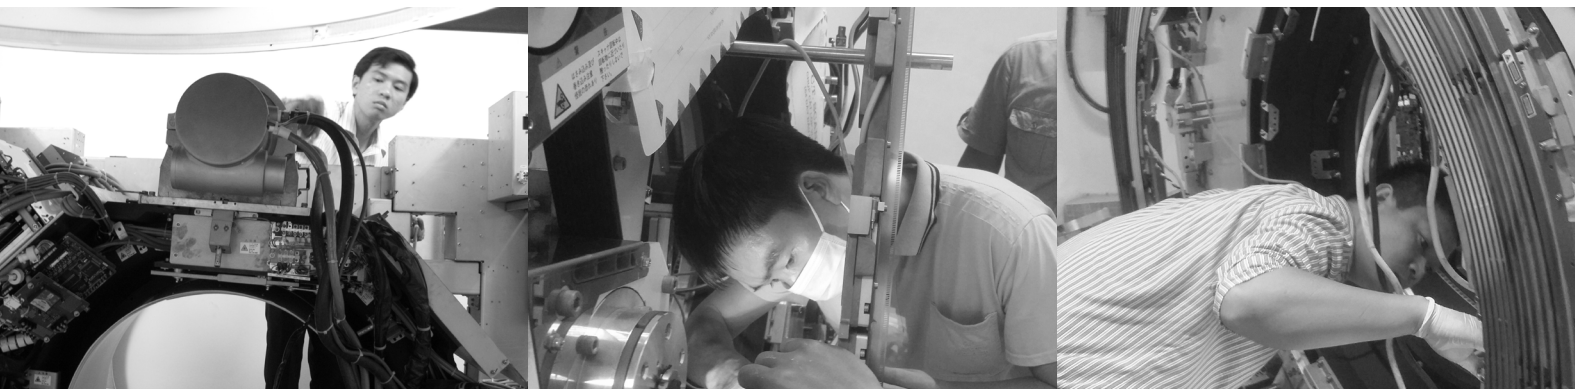

JVC is one of the pioneers in healthcare PPP by implementing the associate investment model with many hospitals, where we fully or partially finance medical instrument investment projects by utilising our strength in high-tech medical instrument, including MRI machines, CT scanners, X-ray machines, etc.

This cooperation model not only reduces large initial investment for the hospitals but also creates access to new technology, enhancing the quality and conditions of healthcare facilities, thus bringing greater benefits

to patients, hospitals and society. JVC’s target is always to parallel company development with social prosperity.

Since 2018, JVC has launched the Mobile computed tomography system in order to support the hospitals cooperating with us. Erroneous systems were promptly replaced to minimize the erratic interruptions of treatment processes and the expenses that may incur.

## TECHNICAL SERVICES

Technical service is one of the outstanding strengths of JVC. Since our early days, we have always regarded human resources as our biggest competitive advantage. We have built a dedicated team who are professionally trained, experienced in-house engineers.

Every year, JVC's engineers have the opportunities to attend training workshops at our suppliers' premises and receive certificates equivalent to those of the suppliers' owned engineers - proving technical competencies.

These investments aim to fulfill our commitment to continuously improve our service quality.

JVC can proactively and promptly respond to customer inquiries without having to wait for engineers from the manufacturers. This speeds up problem solving process, minimizes the incurring costs due to delayed intervention and ensures that customers can rest assured for choosing JVC as their partner.

Currently, we are providing technical services such as consultancy, technical support, repair, maintenance...

**30 engineers**

**Professional training**

**More than 10 years experience**

**24/7 support**

## IT SERVICES

Catching up with the digitalization trend in the healthcare sector, JVC now offers IT services for hospitals, particularly the implementation of PACS (Picture Archiving and Communication Systems). In the field of diagnostic imaging, PACS has been developed using DICOM digital imaging instead of traditional film to provide economical storage and fast access, aimed to promote remote medical services. At the same time, PACS also helps physicians interact with, process and analyze images easily.

With these undeniable benefits, IT services have been developed to promote intelligent, highly digitalized hospital model in Vietnam. We provide consultancy and implementation services of comprehensive integrated IT systems for hospitals.

**Save storage space & reduce storage costs**

**Save time for document transfer**

**Increase treatment effectiveness**

**Support remote diagnosis**

**Integrate easily with other softwares (HIS, RIS, EMR ...)**

# GENERAL CLINIC

JVC is proud to have the largest number of mobile health checkup buses in Vietnam! So far, Viet Nhat General Clinic has had 20 mobile health checkup buses equipped with modern diagnostic equipment, enabling us to satisfy a wide variety of medical check up demands with high quality, for up to 2,000 patient visits per day.

We are not only a mobile health checkup provider for local and foreign companies throughout the country, but also a prestigious partner of many State-level health care projects. In particular, we have been a trustworthy companion of Vietnam National Tuberculosis Control Program of the National Lung Hospital since 2012. In addition, from 2018, we have been working with Vietnam National Cancer Hospital and Brighter Tomorrow Foundation to launch MAMMO health check up buses for breast cancer screening nationwide.

CITIES/PROVINCES

637

CUSTOMERS

During nearly 20 years of operation, JVC has been creating access to Japan's modern technologies for many healthcare sites across the country. Our focus is to bring state-of-the-art medical instrument to not only the central or provincial hospitals but also health centers, clinics, and hospitals at district level. This provides people with the opportunity to access high quality healthcare services, thereby step by step implementing the healthcare goals proposed by the Government.

Some typical customers

# OUR STRATEGIES

---

# DEVELOPMENT STRATEGIES

## MEDICAL INSTRUMENT SALES

- Promoting sales from diagnostic imaging and CSSD equipment
- Looking for new products, focusing on technology and solutions, cooperating with more reputable global suppliers from Asia and Europe

## ASSOCIATE INVESTMENT

- Maintaining the performance of current sites
- Tightening requirements with new projects: only highly evaluated projects would be implemented
- Deploying mobile computed tomography system to strengthen customer support services

## IT SERVICES

- Implementing diversified specific solutions to each client's scale of operation and demands
- Providing consultancy and implementation services of comprehensive IT systems for hospitals

## GENERAL CLINIC

- High-quality General Clinic
- Deploying new health care models cooperating with leading general and specialised hospitals

“*Become a medical investment company*”

## CONSUMABLE MATERIALS SALES

- Promoting sales from PACS while sales from X-ray film are in a declining trend because hospitals are moving towards using integrating digitalized technologies
- Finding out new products
- Improving operational performance of current products, distribution channels and markets

## TECHNICAL SERVICES

- Improving after-sale services quality by providing maintenance and warranty services
- Providing professional maintenance services on time

## DIAGNOSTIC IMAGING CENTER

- High-quality Diagnostic Imaging Center
- Deploying new health care models cooperating with leading general and specialised hospitals

# SOCIAL RESPONSIBILITY

Over the years, JVC has constantly contributed to the advancement of national healthcare sector. In addition to connecting Japan's leading medical technology and equipment to Vietnam hospitals and healthcare sites, we are continuously promoting specialized activities: organize or sponsor conferences, scientific seminars, training programs, professional associations and funds such as The National Radiology Congress, TB Victims Support Fund, Brighter Tomorrow Foundation, etc.

In addition, we also organize or participate in free health check up for people in the remote areas, blood donation, and relief for flood victims, etc.

In the future, JVC will continue to support professional and social activities, contributing to the development of the healthcare sector as one of our core values.

“Contributing to the development of the healthcare sector as one of our core values.”

# PROFESSIONAL ASSOCIATIONS

JVC is an active member of professional healthcare associations, including:

- Vietnamese Society of Radiology and Nuclear Medicine
- Vietnam Medical Equipments Association
- Hospital Directors Club
- Vietnamese Neurological Surgeons
- Ho Chi Minh City Infection Control Society
- Vietnam Society of Anaesthesiologists
- Vietnam Nurses Association of the Medical Services Administration

...

By engaging in activities of professional associations, JVC demonstrates our commitment to reputable healthcare organizations, regularly update information, listen to feedback and understand the situation as well as actual demand for healthcare technology, based on which, JVC will plan our direction in a consistent and practical manner.

# BRAND MESSAGE

For almost 19 years represented by the symbol of two hands supporting the rising sun, JVC has delivered its commitment from the early days as a bridge to bring Japanese quality to foster the development of Vietnamese healthcare sector. The 20th anniversary, we wish to bring a new wind of an enthusiastic JVC in a more modern, professional, youthful and dynamic image, in tune with the continuous change of the healthcare sector in particular and our country in general.

Our new symbol is a combination of a STAR, representing Vietnamese spirit and SAKURA, honoring Japanese quality. These sophisticated images once again emphasize the pride that JVC has been carrying through our development milestones.

We are constantly moving forward, embracing spirit of innovation to bring good values to the society.
